

BRIEF DESCRIPTION OF THE COMPANY

We started as a construction company in 1992. Since the very beginning we focused our activity on residential buildings and related works. Until now we have built many different buildings and housing developments (ca. 50.000 sq.m) as well as some medium size office buildings. The estimated value of the building constructed by us exceeds 25,000,000 US dollars.

Our offer includes :

- general execution of the projects,
- one-family and multi-family residential buildings,
- industrial projects,
- office buildings,
- full scope of construction and engineering works,
- placing of media systems and other external facilities (infrastructure),
- road surfaces, fences and noise reduction screens,
- designing and planning,
- duties in charge of an investor and its representation during the project,
- sale of houses constructed in a traditional technology
